

KEYNOTE

W O M E N S P E A K E R S

The world's leading directory of female public speakers

BRINGING MORE DIVERSITY TO SPEAKING STAGES

We represent women of different ethnicity, nationality, age, ability, sexual orientation, life experience, education, and speaking topics on stage to inspire more people.

Because diversity increases group intelligence. We all stand to benefit.

With the right platforms, connections and training, the gender imbalance of the industry can be restored.

WHY KEYNOTE WOMEN SPEAKER TRAINING?

Because the world's speaking events are often male dominated – and the diversity that we create increases group intelligence. We all stand to benefit.

We enhance the confidence of women to speak up on stage, at work, and with family and friends. This in turn provides them with visibility and career opportunities.

By making female role models visible, we are inspiring more women in all domains to become experts and leaders.
