

## Teacher for our English Stream

Are you a native speaker of the English Language? Are you an energetic professional with excellent classroom management skills? Looking to work in a multicultural environment and make a positive difference to our students?

While teaching in either Key Stage One or (Lower) Key Stage Two, depending on your experience, you will help continue to strengthen the English Stream. As an enthusiastic and inspirational colleague, you are able and willing to contribute positively to the next steps in our school's future.

### The role and responsibilities

Your role as a Primary School Teacher is crucial for the development and education of our young children. Your main task will consist of planning and delivering lessons, including English and Mathematics, and teaching through the International Primary Curriculum (IPC). Students in your class receive one hour of Dutch language instruction per day.

Creating a positive and safe learning environment is essential. You will manage student behaviour, encourage participation, and teach engaging, well-planned lessons. Every child in our school is unique, so you will need to differentiate your teaching methods to accommodate different learning styles. You will provide feedback to students and their parents about their academic performance, building strong connections with our active parent community.

Effective communication with parents is crucial for a child's educational success. You will regularly update parents on class activities through our school's online platform and during parent-teacher meetings.

We are looking for a candidate with a collaborative approach to working. Collaboration with other staff members is essential for creating a cohesive learning environment and addressing the diverse needs of students.

We are seeking a candidate with **at least 3 years of teaching experience** as a class teacher (or homeroom teacher), preferably in the English National Curriculum. Experience in Key Stage Two (Year ...-...) is also an advantage.

#### You have

- At least a Bachelor's degree in education, with Qualified Teacher Status (QTS).
- Strong subject knowledge across the primary curriculum; experience of teaching the IPC is an advantage
- Ability to maintain a positive and inclusive learning environment, manage behaviour effectively and promote student engagement.
- Excellent communication skills with students, colleagues, and parents.
- Flexibility to adapt teaching strategies based on individual student needs.
- Understanding of safeguarding policies and procedures.

We are looking for a team player who is adaptable and takes initiative, and is also familiar with Google Suite and ICT literate.

#### Our offer

In line with this role, we will offer a suitable package.

The intended start date is June 1st, 2024 (or earlier) and it will be a full-time contract for a period of one school year with the potential for renewal.

#### Your application

Candidates residing in Singapore and who believe they meet the requirements, are encouraged to address their application to Mr. Omar Rickets, Principal of our school via [recruitment@hollandinternationalschool.sg](mailto:recruitment@hollandinternationalschool.sg).

Please send us your motivation letter and CV, plus two references.

Shortlisted candidates will be invited for an interview with the recruitment committee for the English Stream. Successful candidates at the interview stage will then be asked to return a second time to teach an observed lesson to a class of students.

### This is us

Holland International School is a school that provides excellent primary school education in the Dutch and English languages. With attention to individual learning needs in a safe and tight-knit community, each child will soon feel at home. With more than a century of educational experience in Singapore, Holland International School creates a rich learning environment, where students are empowered to achieve their best.

At Holland International School we offer two learning streams with an international focus and based on one Dutch-rooted approach to education. Within the English Stream, the language of instruction is English and Dutch is offered as a second language. In the Dutch Stream the language of instruction is Dutch with English offered as a second language. Both curricula are taught through the International Primary Curriculum (IPC).

Our school's culture and education approach distinguishes us from other International Schools in Singapore. Our students learn in an inquiry-based, yet structured way. They are given ownership of their learning and this allows them to set their own goals and pursue areas of personal interest. At the same time, they are encouraged to be social learners and be global-minded. Teachers tailor lessons to the different learning needs and talents of their students, to empower each pupil to achieve their best.

Students at Holland International School are not overloaded with homework, which allows them free time to enjoy social activities, sports or simply to relax! We believe this is an essential part of a happy childhood that sparks creativity and a love for learning. This is how we create a unique learning journey.
